

Rafting tour (down the Armu River)

We would like to present you whitewater rafting tour down the Armu River, 2nd grade of difficulty. Access is by helicopter or by van.(the flight time from Vladivostok is 3 hours the one way)
The rafting distance is 120-140 km, with few little rapids and 1 waterfall on the way. The Armu is a rather large tributary of the Bolshaya Ussurka River, its upper stream passing through the almost untouched taiga. Rafting down the Armu

is not difficult and allows for quite admiration of the taiga river wilderness. The logging roads cross the Armu near the place it flows through the Bolshaya Ussurka River. Here fishermen can catch lenok, loach, brown trout, taimen and greyling with their spinning rods. We raft along the river, making frequent stops to enjoy the view, to have meals and to study the difficult rapids with an experienced rafting instructor before taking them.
